

SURROGACY COST GUIDE

OPTIONS IN KIEV, UKRAINE
SUMMER 2017

OUR UNIQUE OPTION: SUCCESS UNLIMITED

YOUR PREGNANCY... WITH NO RISK

An excellent option for Future Parents who want assurances of their new family, the "Success Unlimited" option includes an unlimited number of embryo transfer attempts for one fixed fee. The clinic will continue to work with the Intend Parents until they achieve a successful birth.

Statistically, the probability of success with just a few transfers is over 95%. The Unlimited Success offer includes an unlimited number of attempts, making this program the closest thing to "guaranteed baby" as can be ethically offered.

The plan offers assurances to parents who are not familiar or fully comfortable with the surrogacy procedure. The program eliminates the possibility of scams or purposeful delays. Under Unlimited Success the clinic and the Intended Parents both benefit directly from a successful, healthy pregnancy as directly as possible.

Please contact Info@SensibleSurrogacy.com for details and restrictions of this plan. Some of the restrictions include:

This program is only valid with pre-approved egg donors evaluated by the clinic. The clinic will provide a list of donors and prospective parents will choose from this list.

Genetic fathers must also be approved by the clinic based on a healthy semen analysis for admittance to this program.

Once you reach a successful pregnancy, the terms of the program are considered satisfied. Additional frozen embryos created during the procedure may be used by the prospective parents in future procedures under separate agreements.

**Note that special program offers like the "Guaranteed Pregnancy" are negotiated with the clinic on a case-by-case basis. The specific terms of your program may differ based on the quality of your medical evaluation.*

Surrogate transportation within Kiev	\$20	<i>Per hour</i>
Interpreting & translation	\$30 / \$20	<i>Per hour / per page</i>

About the True Cost of Your Surrogacy Program...

Sensible Surrogacy works with several world-class IVF clinics in the Ukraine, each with different services and packages. Pricing will vary between clinics and between programs with multiple options. We sort through the confusion and simplify the options so our clients know exactly what to expect. Our commitment is 100% transparency and we won't begin a program until all the costs are understood and approved by our clients.

The price published by most clinics is their cheapest "basic package" – but that is never the entire cost of your surrogacy program. Most agencies and clinics will add extra fees and mandatory medical requirements after you've started your program. That practice is often misleading and unethical.

How Sensible Surrogacy is different... We work with each client to develop an all-inclusive budget that details every desired option and optional service. We will customize a package to each couple's unique situation, timetable, and finances.

As part of our core service, we will develop a complete, all-inclusive budget that includes all selected procedures, their costs, and when they will be paid. We will even assist in estimating travel and lodging expenses during your visits overseas.

...We promise complete transparency, and there are NO hidden costs in our program.

Sensible Surrogacy & The Adonis Family Clinic

Sensible Surrogacy is pleased to be working with the ADONIS FAMILY clinic. Adonis is one of the leading private infertility clinics in Eastern Europe. During their nearly 20 years' experience they have developed a world-class standard of care that supports patients' overall fertility health from the very first meeting through the delivery of the baby. Their expert medical team provide best results of treatment by combining professionalism, advanced equipment, private laboratories, modern individual rooms, comfortable atmosphere and polite friendly service.

Adonis provides a long list of services in reproductive health, of which Surrogacy and Egg Donation is just one small component. The clinic is equipped with its own state-of-the-art diagnosis and laboratory facilities, as well as its own PGD laboratory for chromosomal analysis. The comprehensive in-house facilities enable immediate and accurate diagnosis, permanent monitoring, and qualitative treatment options.

The chief doctor is Dr. Olga Sylava -- a specialist in embryology and reproductive health, gynecology and ultrasound examination. She holds the highest medical degree: the 1-st category (A). She has been working in the field since 2003.

Sensible Surrogacy Fact Sheet

- ♦ SENSIBLE SURROGACY is a leading surrogacy provider in Europe, Asia and North America, founded in 2007 and with nearly 500 successful cases.
- ♦ We offer a full-service solution: from initial consultation, through all aspects of IVF and pre-natal care, to the ultimate delivery of your baby's passport and travel documents.
- ♦ We work with the leading IVF doctors and clinics in India, Mexico, Ukraine and the United States. Our success rate is among the best in each region, and worldwide.
- ♦ Our IVF doctors are seasoned in advanced IVF and surrogacy procedures, with training in the United States, Europe, Australia, and India.
- ♦ We are proud of our ethical surrogacy principles. We strive to make a positive change in the lives of our surrogate mothers.
- ♦ We are LGBT founded, and know first-hand the issues around same-sex parenting.
